PROFESSIONAL SUMMARY

Civil engineer with a Master Black Belt in Lean Construction and a master's with research in project management. I built construction schedules for clients and followed project execution, with indicator management and a short, medium and long-term view. I also followed construction and renovation sites, with measurements and budgets. Today I lead technology projects such as the Lean Efficiency in Construction Award, which ranks construction sites by their Lean indicators. I want to work strategically on planning and managing clients' construction projects.

CORE SKILLS

Lean Construction • Construction planning and scheduling • Indicator (KPI) management • Short, medium and long-term planning • Construction measurement and budgeting • Team management • Scrum and Kanban • Process mapping (BPMN)

Tools: MS Project • Advanced Excel • Jira • ClickUp • Bizagi

PROFESSIONAL EXPERIENCE

Customer Service Specialist *July 2024 – present*
Aval Tecnologia

- Managed the Lean Efficiency in Construction Award project, which ranks client construction sites by Lean indicators (2nd place in the internal AI competition).
- Led the rollout of ClaudIA, an AI virtual support agent, which retained 30% of conversations in the first month.
- Manage the Customer Success support team with Scrum and Kanban and standardize workflows between Zendesk and Jira.

Analyst (Civil Engineering) *January 2023 – June 2024*
Aval Tecnologia

- In Customer Success, built construction plans and schedules with MS Project for clients and followed execution.
- Managed indicators (KPIs) and dashboards for engineering projects, supporting short, medium and long-term planning.

Building Technician *2021 – 2022*
SOS Elétrica

- Followed construction and renovation projects, supporting site management.
- Managed contract measurement documents and prepared budgets.

Other experience
Civil Engineering Intern — SEINFRA | 2020 – 2021
Process Analyst (Volunteer) — PMI | January 2026 – July 2026

EDUCATION

Master's in Computer Science (research in project management) — CIn-UFPE — Aug 2023 – Dec 2025
Postgraduate Degree in Data Management and Analysis — PUC-MG — Jun 2023 – Dec 2024
Bachelor's in Civil Engineering — IFCE — Aug 2015 – Dec 2020

COURSES AND CERTIFICATIONS

Master Black Belt in Lean Construction — AcademyCon (2022) • Programming Logic — PUC-MG (2024) • Process Management — Max Santos (2023) • Advanced English, B2 level — LSI (2021) • Advanced Excel — SENAI (2011)

PROJECTS

- **Lean Efficiency in Construction Award | 2026** — monthly ranking of construction sites with indicator auditing; 2nd place in the internal AI competition
- **Project Observatory Design Guide | 2025** — project management guide and canvas published in open access, from my master's research
- **ClaudIA: AI Virtual Support Agent | 2026** — led the rollout across three channels; 30% of conversations retained by AI in the first month
