ALAN LEMOS

Project Management | Planning, Indicators and Applied AI

+55 85 98763-6925 • contato@alanlemos.com.br • alanlemos.com.br/en • Fortaleza, Brazil • linkedin.com/in/alan-lemos-amaral-647aba1ba

PROFESSIONAL SUMMARY

Civil engineer with a master's in Computer Science, research in project management and a Master Black Belt in Lean Construction. I lead projects and teams from planning to delivery, combining predictive (PMBOK) and agile (Scrum and Kanban) approaches. I led the rollout of an AI customer service that retained 30% of conversations in the very first month and managed the Lean Efficiency in Construction Award project, 2nd place in the company's internal AI competition. From construction planning, I bring a solid foundation in schedules and indicators.

CORE SKILLS

Project management (PMBOK, predictive and agile) • Scrum and Kanban • Planning and scheduling • Indicator (KPI) management and tracking • Short, medium and long-term planning • Process mapping (BPMN) • Team and stakeholder management • AI applied to processes

Tools: MS Project • Jira • ClickUp • Zendesk • Bizagi • Advanced Excel

PROFESSIONAL EXPERIENCE

IT Support Specialist *July 2024 – present*

Aval Tecnologia

- Led the rollout of ClaudIA, an AI virtual support agent on three channels, which retained 30% of conversations in the very first month.
- Managed the transition from human to AI customer service, mapping processes in Bizagi and reviewing the knowledge base.
- Managed the Lean Efficiency in Construction Award project (2nd place in the internal AI competition) and won another 2nd place with a team AI project.
- Manage the Customer Success support team with Scrum and Kanban in Jira and integrate processes between Zendesk and Jira.

Analyst (Civil Engineering) *January 2023 – June 2024*

Aval Tecnologia

- In Customer Success, built construction schedules for clients with MS Project and followed project execution on site.
- Managed indicators (KPIs) and dashboards for engineering projects, supporting clients' short, medium and long-term planning.

Process Analyst (Volunteer) *January 2026 – July 2026*

PMI

- Drafted the project charter and mapped processes in BPMN, organizing deliverables in ClickUp and applying PMBOK best practices.

Building Technician *2021 – 2022*

SOS Elétrica

- Followed construction and renovation projects, supporting site management with contract measurements and budgets.

Other experience

Civil Engineering Intern — SEINFRA | 2020 – 2021

EDUCATION

Master's in Computer Science (research in project management) — CIn-UFPE — Aug 2023 – Dec 2025

Postgraduate Degree in Data Management and Analysis — PUC-MG — Jun 2023 – Dec 2024

Bachelor's in Civil Engineering — IFCE — Aug 2015 – Dec 2020

COURSES AND CERTIFICATIONS

Master Black Belt in Lean Construction — AcademyCon (2022) • Programming Logic — PUC-MG (2024) • Process Management — Max Santos (2023) • Advanced English, B2 level — LSI (2021) • Advanced Excel — SENAI (2011)

PROJECTS

- **ClaudIA: AI Virtual Support Agent | 2026** — led the rollout across three channels; 30% of conversations retained by AI in the first month
- **Lean Efficiency in Construction Award | 2026** — monthly ranking of construction sites with indicator auditing; 2nd place in the internal AI competition
- **Smart Support App for Zendesk | 2026** — AI ticket classification, replies and escalation right inside the ticket
- **Project Observatory Design Guide | 2025** — project management guide and canvas published in open access, from my master's research
